OFFICE ON BEADERICK STREET. RATES OF ADVERTISING.

Newspaper proprietors generally, and especially of this sity, under the usages and regulations heretolore prevaling are called upon to perform more labor without remoneration, than any othes class of community. The gratotious publication of charity and religious advertisement, and communications, tributes of respect, obituaries, &c., &c., which can only be inserted at a heavy cost to the proprietor, imposts upon them a barden so onorous, that they feel called upon, in self-defence, to check the abuse, by making such publications a charge, to some extent at least, upon the parties more manediately interested. In this they are but following the example of the press in other cities, impelled by a sense of its intrinsic propriety, and imperative duty to themselves. The subscribers have, therefore, united together in a mutual agreement, upon the lossing specified terms or the publication of these as well as every sort of regular business advertising.

TESTIMONIALS.

From J. H. McMahon, Esq., Editor Memphis Bulletin. MR. J H. SEMMONS-Sir: The use I have made of the pair

of Glasses obtained from you, satisfies me of the utility and value of the form and material by which they are distin-

clear without fitigue to the eye.

So far as my limited experience extends, I am very much

my testimony to their superiority over any other lenses I

have yet seen. • Besides the chicoop yof this form, shape, &c., the remarkable transparences and hardness of the material render them peculiarly adapted to the purposes of assisting impaired vision, which, unlike other Spectacles, do so with-

out fatiguing the eye by their use.

I can, my dear sir, cordially recommend your Brazilian

Pubbles to my friends as especially worthy of their confidence, and feel assure that a trial will in every case give satisfaction. I am, my dear air, truly yours, &c.

Thave examined and used myself Mr. J. H. Semmons Brazilian Pebbla Speciacies, and fully concur in the opinion expressed above by Prof. A. K. Taylor, as to their superior-

ity, both in form and material, over the ordinary glasses.

and recommend them to all persons requiring the rise of Speciacles.
